Brief Description of Features

DND Button – Do Not Disturb - Blocks incoming calls ringing. This applies to outside calls, intercom calls and transfers. Red LED illuminates when DND is on. Press to turn on/off.

Headset Button – Used to place/answer calls using the headset.

Vol ▲▼ Button – Adjusts Handset, Speaker or Headset during a call/off hook state. Ringer volume is turned up or down if phone is ringing. LCD contrast is turned up or down if phone is in idle state.

Trans Button – Transfer a line call or an intercom call to another station during a call.

Hold Button – Places an active call on hold, the held party will hear a hold music.

Mute Button – In call state this disables the handset, speakerphone or headset microphone whilst continuing to listen to the other party. Red LED illuminates when the 'mute mode' is on.

Speaker Button –Used to place/answer calls using the speaker/microphone.

Menu Button – Used to set or change the configuration, or to register to a iPECS-LIK system.

MSG Button – Used to access voice messages.

3 Soft Buttons – Used to set features displayed on the LCD.

Line & Station Selection Buttons – Access Lines and Stations for making, receiving and transferring line and intercom calls. These illuminate to provide visual line and station status.

RING Indication – Illuminates when ringing.

**Message Wait** – Flashes when message is received (optional).

LCD – Displays status and information about the phone interface or setting.

Microphone – Used for hands-free speakerphone function.

**Navigation Key** – Used to set or change the configuration with Menu and soft buttons.

Sample Configuration

4 LWS-WK Connections

To connect the LWS-WK to be used with the system:
1. Plug the AC/DC Adaptor cord into the bottom of the LWS-WK.
2. Fasten the AC Adaptor cord to the latch Hook as shown (inset detail).
3. Connect the handset to the bottom of the LWS-WK.
4. Connect the headset to the headset jack on the bottom of the LWS-WK. (Optional)

AC/DC Adaptor (SA-B122)
Handset
Hook
Headset

LWS-WK Connections

note:
1. If two LWS-WK are located in one base, there is no more located with the same RPN base number.
2. If two LWS-WK already subscribed in one cell and LWS-WK just move from designated cell coverage to another or power off, system side don't know these actions--> Even if one LWS-WK is located in one cell, it is impossible to subscribe new one.
3. LWS-WK can't be unsubscribed in web admin menu("DECT Unsubscribe" when it is searching(base) state.-->In this case, operator should erase both system and LWS-WK.
4. LWS-WK should be subscribed within the scope of order number 1~8.
   ->View "DECT Registered Station menu" in web menu.

5 LWS-WK Registration to iPECS-LIK system

iPECS-LIK system controls the functional service and registration related to the LWS-WK. Each LWS-WK must be registered to iPECS-LIK system before use. Only one LWS-WK can be registered to iPECS-LIK system at a time.

To enable a registration, the below procedure must be performed on iPECS-LIK system
1. Open the web admin and enter login.
2. Select the DECT Data.
3. Select DECT Registration(0#).
4. Enter the phone number.
5. Select the phone type. (4:"LWS-WK")
6. Press the Send button.
7. Display the message "Subscribe enable".

Registering the LWS-WK to iPECS-LIK system
To register to iPECS-LIK system, below procedure is performed on the LWS-WK.
1. Press **[Menu]** button to display the menu.
2. Highlight **[Phone Register]** using the Navigation up/down key, and then press **[OK]** soft button or Navigation 'OK' key.
3. Select **[Subscription]** using the Navigation up/down key, and then press **[OK]** soft button or Navigation 'OK' key.
4. Display the "BASE RPN(0~23)".
5. Enter RPN number.
6. Display **[Searching..1]**.
7. The system **[RFPI** : eg. 01234567890123**]** will be displayed when a system is found. The RFPI of your system is available from your System Administrator, or perhaps the attendant.
8. display the "AC Code".
9. Enter AC Code value.
10. Press **[OK]** soft button or Navigation 'OK' key. In a few second, a confirmation tone is received at the LWS-WK.
11. Display the message "Subscription Done".
12. Rebooting the terminal for location registering.
13. If the registration fails, repeat procedure from Step 5 to 7 at iPECS-LIK system and Step 1 to 10 from the LWS-WK.
